Databases	MySQL
AI & Automation	Prompt Engineering, AI Workflows, Automation Concepts
Tools & Platforms	ServiceNow, Git, GitHub

Experience

ServiceNow University Virtual Internship Program	Feb 2026 – Apr 2026
---	---------------------

- Gained hands-on experience in workflow automation and enterprise-level systems.
- Worked with structured data and improved understanding of business process optimization.

Projects

Smart Hostel Issue Management System	May 2026 – Present
---	--------------------

- Developed a ServiceNow application to manage and track hostel-related issues raised by students.
- Designed a Smart Hostel Help Portal for submitting, tracking, and monitoring complaints related to maintenance, electrical, plumbing, and housekeeping services.
- Automated issue assignment, status updates, notifications, and resolution workflows using Flow Designer.
- Implemented Client Scripts, UI Policies, Business Rules, and ACLs to provide dynamic forms, business logic, and secure role-based access.

Smart City Bus Route	Aug 2025 – Dec 2025 GitHub Link
-----------------------------	---

- Developed a full-stack web application using **React, Spring Boot, and MySQL**.
- Implemented REST APIs for route search, bus information, and schedule management.
- Designed a responsive user interface for searching city bus routes and timings.
- Integrated frontend and backend services with MySQL database connectivity.

Certifications

- ServiceNow Certified System Administrator - April 18, 2026
- ServiceNow Certified Application Developer - July 23, 2026
- ServiceNow Certified Implementation Specialist – Data Foundations (CMDB and CSDM) - August 31, 2026
